## THE ART OF THE AFRICAN KINGDOMS

FEATURED COLLECTION 2018

# THE ART OF THE AFRICAN KINGDOMS

For thousands of years, African artists have experimented with and mastered diverse materials and technologies that have enabled them to produce works of astonishing beauty and technical excellence.

---

Today, traditional African art is one of the most popular studied form of art typically found in museum collections. European modernists admired the aesthetics of what they called “Primitive Art,” — European and American cubist and totemic artists, such as Pablo Picasso, Amedeo Modigliani, and Henri Matisse, in the early twentieth century, were heavily influenced by traditional African art.

We invite you to celebrate the diversity of various ethnic cultures from Africa through this private collection and to share it. Cultural heritage provides a “tangible link” to the past and it is a great educational tool for the study of ancient societies and cultures. Africa lacks the institutions and resources to protect these precious works due to wars and poverty. We seek to protect the artifacts from destruction in war-torn countries but also create an emotional connection. The fighting has already caused great destruction of religious artifacts and structures.

This entire collection has been curated by the Founder and Owner of African Arte Gallery, Seydou Mamadou Keita, and comprises 200 pieces, representing years and years of African artistic heritage, with masks, sculptures, utilitarian objects, bronze pieces, from several ancient African civilizations of Dogon, Djenne, Grebo, Senufo, Chamba, Fang, and many more.
